shall transmit to the Congress a report on the reorganiza-
tion of the National Science Foundation required as a re-
sult of the amendment made by subsection (a).

2 cluding management restructuring, facility consoli-
3 dation, procurement reform, personnel base
4 downsizing, and convergence with other defense and
5 commercial sector systems.

6 (2) While institutional reforms, restructurings,
7 and downsizing hold the slim promise of reconciling
8 the disparity between projected needs of the Na-
9 tional Aeronautics and Space Administration with
10 funding levels requested by the Administration over
11 the next 4 years, such reforms provide no guarantee
12 against cancellation of missions or elimination of
13 centers in the event reform efforts fail to achieve
14 cost reduction targets.

15 (3) The National Aeronautics and Space Ad-
16 ministration must reverse its current trend toward
17 becoming an operational agency, and return to its
18 proud history as the Nation's leader in basic sci-
19 entific air and space research.

20 (4) Commercial space activity is in a delicate
21 state of growth. It has the potential to eclipse Fed-
22 eral space activity in its economic return to the Na-
23 tion, if it is not stifled.

24 (5) The United States is on the verge of creat-
25 ing and using new technologies in microsatellites, in-

1 formation processing, and space launches that could
2 radically alter the manner in which the Government
3 approaches its space mission.

4 (6) The overwhelming preponderance of the
5 Federal Government's requirements for routine, non-
6 emergency manned and unmanned space transpor-
7 tation can be met most effectively, efficiently, and
8 economically by a free and competitive market in
9 privately developed and operated launch services.

10 (7) In formulating a national space transpor-
11 tation service policy, the National Aeronautics and
12 Space Administration should aggressively promote
13 the pursuit by the commercial sector of development
14 of advanced space transportation technologies in-
15 cluding reusable space vehicles, single-stage-to-orbit
16 vehicles, and human space systems.

17 (8) The Federal Government should invest in
18 the types of research and innovative technology in
19 which the United States private sector does not in-
20 vest, while avoiding competition with the activities in
21 which the United States private sector does invest.

22 (9) International cooperation in space explo-
23 ration and science activities serves the United States
24 national interest—

25 (A) when it—

1 (i) reduces the cost of undertaking
2 missions the United States Government
3 would pursue unilaterally;

4 (ii) enables the United States to pur-
5 sue missions that it could not otherwise af-
6 ford to pursue unilaterally; or

7 (iii) enhances United States capabili-
8 ties to use and develop space for the bene-
9 fit of United States citizens; and

10 (B) when it does not—

11 (i) otherwise harm or interfere with
12 the ability of United States private sector
13 firms to develop or explore space commer-
14 cially;

15 (ii) interfere with the ability of Fed-
16 eral agencies to use space to complete their
17 missions;

18 (iii) undermine the ability of United
19 States private enterprise to compete favor-
20 ably with foreign entities in the commercial
21 space arena; or

22 (iv) transfer sensitive or commercially
23 advantageous technologies or knowledge
24 from the United States to other countries
25 or foreign entities except as required by

1 those countries or entities to make their
2 contribution to a multilateral space project
3 in partnership with the United States, or
4 on a quid pro quo basis.

5 (10) The National Aeronautics and Space Ad-
6 ministration and the Department of Defense can co-
7 operate more effectively in leveraging their mutual
8 capabilities to conduct joint space missions that im-
9 prove United States space capabilities and reduce
10 the cost of conducting space missions.

11 (11) The Reusable Launch Vehicle program,
12 and the acquisition by the Federal Government of
13 the vehicle resulting from that program, are nec-
14 essary for the protection of essential security inter-
15 ests for purposes of interpreting the obligations of
16 the United States under the General Agreement on
17 Tariffs and Trade.

18 **SEC. 203. DEFINITIONS.**

19 For purposes of this title—

20 (1) the term “Administrator” means the Ad-
21 ministrator of the National Aeronautics and Space
22 Administration;

23 (2) the term “cost threat” means a potential
24 change to the program baseline documented as a po-

1 tential cost by the Space Station Program Office;
 2 and

3 (3) the term “institution of higher education”
 4 has the meaning given such term in section 1201(a)
 5 of the Higher Education Act of 1965 (20 U.S.C.
 6 1141(a)).

15 **CHAPTER 2—RESTRUCTURING THE NA-**
16 **TIONAL AERONAUTICS AND SPACE AD-**
17 **MINISTRATION**

18 **SEC. 221. FINDINGS.**

19 The Congress finds that—

20 (1) the restructuring of the National Aero-
21 nautics and Space Administration is essential to ac-
22 complishing the space missions of the United States
23 while simultaneously balancing the Federal budget;

24 (2) to restructure the National Aeronautics and
25 Space Administration rapidly without reducing mis-

1 sion content and safety requires objective financial
2 judgment; and

3 (3) a formal economic review of its missions
4 and the Federal assets that support them is required
5 in order to plan and implement needed restructuring
6 of the National Aeronautics and Space Administra-
7 tion.

8 **SEC. 222. RESTRUCTURING REPORTS.**

9 (a) IMPLEMENTATION REPORT.—The Administrator
10 shall transmit to Congress, no later than July 31, 1996,
11 a report on its restructuring activities by fiscal year con-
12 taining, at a minimum, a description of all actions taken
13 or planned to be taken after July 31, 1995, and before
14 October 1, 2002, including contracts terminated or con-
15 solidated; reductions in force; relocations of personnel and
16 facilities; sales, closures, or mothballing of capital assets
17 or facilities; and net savings to be realized from such ac-
18 tions by fiscal year.

19 (b) PROPOSED LEGISLATION.—The President shall
20 propose to Congress, not later than September 30, 1996,
21 all enabling legislation required to carry out actions de-
22 scribed by the Administrator's report under subsection
23 (a).

1 **CHAPTER 3—LIMITATIONS AND SPECIAL**
2 **AUTHORITY**

3 **SEC. 231. USE OF FUNDS FOR CONSTRUCTION.**

4 (a) **AUTHORIZED USES.**—Funds appropriated under
5 sections 211(1) through (5), 212, and 213(1) and (2), and
6 funds appropriated for research operations support under
7 section 213(4), may be used for the construction of new
8 facilities and additions to, repair of, rehabilitation of, or
9 modification of existing facilities at any location in support
10 of the purposes for which such funds are authorized.

11 (b) **LIMITATION.**—None of the funds pursuant to
12 subsection (a) may be expended for a project, the esti-
13 mated cost of which to the National Aeronautics and
14 Space Administration, including collateral equipment, ex-
15 ceeds \$500,000, until 30 days have passed after the Ad-
16 ministrator has notified the Committee on Science of the
17 House of Representatives and the Committee on Com-
18 merce, Science, and Transportation of the Senate of the
19 nature, location, and estimated cost to the National Aero-
20 nautics and Space Administration of such project.

21 (c) **TITLE TO FACILITIES.**—If funds are used pursu-
22 ant to subsection (a) for grants to institutions of higher
23 education, or to nonprofit organizations whose primary
24 purpose is the conduct of scientific research, for purchase
25 or construction of additional research facilities, title to

1 such facilities shall be vested in the United States unless
2 the Administrator determines that the national program
3 of aeronautical and space activities will best be served by
4 vesting title in the grantee institution or organization.
5 Each such grant shall be made under such conditions as
6 the Administrator shall determine to be required to ensure
7 that the United States will receive therefrom benefits ade-
8 quate to justify the making of that grant.

9 **SEC. 232. AVAILABILITY OF APPROPRIATED AMOUNTS.**

10 To the extent provided in appropriations Acts, appro-
11 priations authorized under chapter 1 may remain available
12 without fiscal year limitation.

13 **SEC. 233. REPROGRAMMING FOR CONSTRUCTION OF FA-**
14 **CILITIES.**

15 (a) IN GENERAL.—Appropriations authorized under
16 any paragraph of section 211(6) or 213(3)—

17 (1) may be varied upward by 10 percent in the
18 discretion of the Administrator; or

19 (2) may be varied upward by 25 percent, to
20 meet unusual cost variations, after the expiration of
21 15 days following a report on the circumstances of
22 such action by the Administrator to the Committee
23 on Science of the House of Representatives and the
24 Committee on Commerce, Science, and Transpor-
25 tation of the Senate.

1 The aggregate amount authorized to be appropriated
2 under sections 211(6) and 213(3) shall not be increased
3 as a result of actions authorized under paragraphs (1) and
4 (2) of this subsection.

5 (b) SPECIAL RULE.—Where the Administrator deter-
6 mines that new developments in the national program of
7 aeronautical and space activities have occurred; and that
8 such developments require the use of additional funds for
9 the purposes of construction, expansion, or modification
10 of facilities at any location; and that deferral of such ac-
11 tion until the enactment of the next National Aeronautics
12 and Space Administration Authorization Act would be in-
13 consistent with the interest of the Nation in aeronautical
14 and space activities, the Administrator may use up to
15 \$10,000,000 of the amounts authorized under section
16 211(6) or 213(3) for each fiscal year for such purposes.
17 No such funds may be obligated until a period of 30 days
18 has passed after the Administrator has transmitted to the
19 Committee on Commerce, Science, and Transportation of
20 the Senate and the Committee on Science of the House
21 of Representatives a written report describing the nature
22 of the construction, its costs, and the reasons therefor.

23 **SEC. 234. CONSIDERATION BY COMMITTEES.**

24 Notwithstanding any other provision of law—

1 (1) no amount appropriated to the National
2 Aeronautics and Space Administration may be used
3 for any program for which the President's annual
4 budget request included a request for funding, but
5 for which the Congress denied or did not provide
6 funding;

7 (2) no amount appropriated to the National
8 Aeronautics and Space Administration may be used
9 for any program in excess of the amount actually
10 authorized for the particular program under this
11 subtitle; and

12 (3) no amount appropriated to the National
13 Aeronautics and Space Administration may be used
14 for any program which has not been presented to
15 the Congress in the President's annual budget re-
16 quest or the supporting and ancillary documents
17 thereto,

18 unless a period of 30 days has passed after the receipt
19 by the Committee on Science of the House of Representa-
20 tives and the Committee on Commerce, Science, and
21 Transportation of the Senate of notice given by the Ad-
22 ministrator containing a full and complete statement of
23 the action proposed to be taken and the facts and cir-
24 cumstances relied upon in support of such proposed ac-
25 tion. The National Aeronautics and Space Administration

1 shall keep the Committee on Science of the House of Rep-
2 resentatives and the Committee on Commerce, Science,
3 and Transportation of the Senate fully and currently in-
4 formed with respect to all activities and responsibilities
5 within the jurisdiction of those committees. Except as oth-
6 erwise provided by law, any Federal department, agency,
7 or independent establishment shall furnish any informa-
8 tion requested by either committee relating to any such
9 activity or responsibility.

10 **SEC. 235. LIMITATION ON OBLIGATION OF UNAUTHORIZED**
11 **APPROPRIATIONS.**

12 (a) REPORTS TO CONGRESS.—Not later than 30 days
13 after the later of the date of enactment of an Act making
14 appropriations to the National Aeronautics and Space Ad-
15 ministration for fiscal year 1997 and the date of enact-
16 ment of this Act, the Administrator shall submit a report
17 to Congress and to the Comptroller General which speci-
18 fies—

19 (1) the portion of such appropriations which are
20 for programs, projects, or activities not authorized
21 under chapter 1 of this subtitle, or which are in ex-
22 cess of amounts authorized for the relevant program,
23 project, or activity under this title; and

24 (2) the portion of such appropriations which are
25 authorized under this title.

1 (b) FEDERAL REGISTER NOTICE.—The Adminis-
2 trator shall, coincident with the submission of the report
3 required by subsection (a), publish in the Federal Register
4 a notice of all programs, projects, or activities for which
5 funds are appropriated but which were not authorized
6 under this title, and solicit public comment thereon re-
7 garding the impact of such programs, projects, or activi-
8 ties on the conduct and effectiveness of the national aero-
9 nautics and space program.

10 (c) LIMITATION.—Notwithstanding any other provi-
11 sion of law, no funds may be obligated for any programs,
12 projects, or activities of the National Aeronautics and
13 Space Administration for fiscal year 1997 not authorized
14 under this title until 30 days have passed after the close
15 of the public comment period contained in the notice re-
16 quired in subsection (b).

17 **SEC. 236. USE OF FUNDS FOR SCIENTIFIC CONSULTATIONS**
18 **OR EXTRAORDINARY EXPENSES.**

19 Not more than \$30,000 of the funds appropriated
20 under section 212 may be used for scientific consultations
21 or extraordinary expenses, upon the authority of the Ad-
22 ministrator.

Subtitle C—International Space Station

SEC. 241. FINDINGS.

The Congress finds that—

(1) the development, assembly, and operation of the International Space Station is in the national interest of the United States;

(2) the National Aeronautics and Space Administration has restructured and redesigned the International Space Station, consolidated contract responsibility, and achieved program management, control, and stability;

(3) the significant involvement by private ventures in marketing and using, competitively servicing, and commercially augmenting the operational capabilities of the International Space Station during its assembly and operational phases will lower costs and increase benefits to the international partners;

(4) further rescoping or redesigns of the International Space Station will lead to costly delays, increase costs to its international partners, discourage commercial involvement, and weaken the international space partnership necessary for future space projects;

1 (5) total program costs for development, assem-
2 bly, and initial operations have been identified and
3 capped to ensure financial discipline and maintain
4 program schedule milestones;

5 (6) in order to contain costs, mission planning
6 and engineering functions of the National Space
7 Transportation System (Space Shuttle) program
8 should be coordinated with the Space Station Pro-
9 gram Office;

10 (7) the International Space Station represents
11 an important component of an adequately funded
12 civil space program which balances human space
13 flight with science, aeronautics, and technology;

14 (8) the International Space Station should be
15 an inspiration to society, particularly our young peo-
16 ple, and should provide new and expanded opportu-
17 nities to meet important educational goals; and

18 (9) when completed, the International Space
19 Station will be the largest, most capable micro-
20 gravity research facility ever developed. It will pro-
21 vide a lasting framework for conducting large-scale
22 science programs with international partners and it
23 is the next step in the human exploration of space.
24 The United States should commit to completing this

1 program, thereby reaping the benefits of scientific
2 research and international cooperation.

3 **SEC. 242. COMMERCIALIZATION OF SPACE STATION.**

4 (a) **POLICY.**—The Congress declares that a priority
5 goal of constructing the International Space Station is the
6 economic development of Earth orbital space. The Con-
7 gress further declares that the use of free market prin-
8 ciples in operating, allocating the use of, and adding capa-
9 bilities to the Space Station, and the resulting fullest pos-
10 sible engagement of commercial providers and participa-
11 tion of commercial users, will reduce Space Station oper-
12 ational costs for all partners and the Federal Govern-
13 ment’s share of the United States burden to fund oper-
14 ations.

15 (b) **REPORT.**—The Administrator shall deliver to the
16 Congress, within 60 days after the date of the enactment
17 of this Act, a market study that examines the role of com-
18 mercial ventures which could supply, use, service, or aug-
19 ment the International Space Station, the specific policies
20 and initiatives the Administrator is advancing to encour-
21 age these commercial opportunities, the cost savings to be
22 realized by the international partnership from applying
23 commercial approaches to cost-shared operations, and the
24 cost reimbursements to the United States Federal Govern-
25 ment from commercial users of the Space Station.

1 **SEC. 243. SENSE OF CONGRESS.**

2 It is the sense of Congress that the “cost incentive
3 fee” single prime contract negotiated by the National Aer-
4 onautics and Space Administration for the International
5 Space Station, and the consolidation of programmatic and
6 financial accountability into a single Space Station Pro-
7 gram Office, are two examples of reforms for the reinven-
8 tion of all National Aeronautics and Space Administration
9 programs that should be applied as widely and as quickly
10 as possible throughout the Nation’s civil space program.

11 **SEC. 244. SPACE STATION ACCOUNTING REPORT.**

12 (a) ANNUAL REPORT TO THE CONGRESS.—The Ad-
13 ministrator shall transmit a report to the Congress each
14 year containing a complete accounting of all costs of the
15 space station, including cash and other payments to Rus-
16 sia.

17 (b) QUARTERLY REPORTS FROM RUSSIA.—The Ad-
18 ministrator shall obtain quarterly reports from the Rus-
19 sian Space Agency during the term of the contract be-
20 tween the Russian Space Agency and the National Aero-
21 nautics and Space Administration which fully account for
22 the disposition of funds paid or transferred by the Na-
23 tional Aeronautics and Space Administration to Russia,
24 including—

1 (1) the amount of funds received from the Na-
2 tional Aeronautics and Space Administration and
3 the date of their receipt;

4 (2) the amount of funds converted from United
5 States currency by the Russian Space Agency, the
6 currency into which the funds have been converted,
7 and the dates and exchange rates of each such con-
8 version;

9 (3) the amount of non-United States currency,
10 and of United States currency, disbursed by the
11 Russian Space Agency to any contractor or sub-
12 contractor, the identity of such contractor or sub-
13 contractor, and the date on which the funds were
14 disbursed; and

15 (4) the balance of the funds provided by the
16 National Aeronautics and Space Administration
17 which have not been disbursed by the Russian Space
18 Agency as of the date of the report.

19 **Subtitle D—Miscellaneous** 20 **Provisions**

21 **SEC. 251. COMMERCIAL SPACE LAUNCH AMENDMENTS.**

22 (a) AMENDMENTS.—Chapter 701 of title 49, United
23 States Code, is amended—

24 (1) in the table of sections—

1 (A) by amending the item relating to sec-
2 tion 70104 to read as follows:

17 United States private sector. Examples of such data in-
18 clude scientific data concerning the elemental and mineral-
19 ogical resources of the moon and the planets, Earth envi-
20 ronmental data obtained through remote sensing observa-
21 tions, and solar storm monitoring.

22 (b) COMPETITIVE BIDDING.—(1) Contracts for the
23 purchase of space data under this section shall be awarded
24 in a process of full, fair, and open competitive bidding.

1 (2) Submission of cost data, either for the purposes
2 of supporting the bid or fulfilling the terms of the con-
3 tract, shall not be required of bidders or awardees of the
4 contract.

5 (3) Reasonable performance specifications, rather
6 than design or construction specifications, shall be used
7 to the maximum extent feasible to define requirements for
8 United States private sector providers with respect to the
9 design, construction, or operation of equipment used in ob-
10 taining space science data under contracts entered into
11 under this section. This subsection shall not be construed
12 to prohibit the Federal Government from requiring com-
13 pliance with applicable safety standards.

14 (4) Contracts under this section shall not provide for
15 the Federal Government to obtain ownership of data not
16 specifically sought by the Federal Government.

17 **SEC. 258. PLAN FOR MISSION TO PLANET EARTH.**

18 (a) REQUIREMENT.—The Administrator shall, within
19 6 months after the date of the enactment of this Act,
20 transmit to the Congress a report containing a plan for
21 Mission to Planet Earth.

22 (b) CONTENTS.—The report required by subsection
23 (a) shall include—

24 (1) an analysis of Earth observation systems of
25 other countries and the ways in which the United

1 States could benefit from such systems, including by
2 eliminating duplication of effort;

3 (2) an analysis of how the Department of De-
4 fense's airborne and space sensor programs could be
5 used in Mission to Planet Earth;

6 (3) a plan for infusing advanced technology into
7 the Mission to Planet Earth program, including
8 milestones and an identification of available re-
9 sources;

10 (4) a plan to solicit proposals from the private
11 sector on how to innovatively accomplish the most
12 critical research on global climate change;

13 (5) an integrated plan for research in the Sci-
14 entific Research and Mission to Planet Earth enter-
15 prises described in the National Aeronautics and
16 Space Administration Strategic Plan issued in May,
17 1994;

22 of the Earth Observing Satellite Data Information
23 System.

1 **SEC. 259. ACQUISITION OF EARTH REMOTE SENSING DATA.**

2 (a) ACQUISITION.—To the maximum extent possible,
3 the Administrator shall, where cost effective, acquire
4 space-based and airborne Earth remote sensing data, serv-
5 ices, distribution, and applications provided by the United
6 States private sector to meet Government goals for Mis-
7 sion to Planet Earth.

8 (b) STUDY.—(1) The Administrator shall conduct a
9 study to determine the extent to which the baseline sci-
10 entific requirements of Mission to Planet Earth can be
11 met by the private sector, and how the National Aero-
12 nautics and Space Administration will meet such require-
13 ments which cannot be met by the private sector.

14 (2) The study conducted under this subsection
15 shall—

16 (A) make recommendations to promote the
17 availability of information from the National Aero-
18 nautics and Space Administration to the private sec-
19 tor to enable the private sector to better meet the
20 baseline scientific requirements of Mission to Planet
21 Earth;

22 (B) determine and prioritize the appropriate
23 baseline scientific requirements for Mission to Planet
24 Earth, and reevaluate, scientifically justify, and

26 baseline scientific requirements;

1 (C) make recommendations to promote the dis-
2 semination to the private sector of information on
3 advanced technology research and development per-
4 formed by or for the National Aeronautics and
5 Space Administration; and

14 at the Stennis Space Center.

15 **SEC. 260. SHUTTLE PRIVATIZATION.**

16 (a) POLICY AND PREPARATION.—The Administrator
17 shall prepare for an orderly transition from the Federal
18 operation, or Federal management of contracted oper-
19 ation, of space transportation systems to the Federal pur-
20 chase of commercial space transportation services for all
21 nonemergency launch requirements, including human,
22 cargo, and mixed payloads. In those preparations, the Ad-
23 ministrator shall take into account the need for short-term
24 economies, as well as the goal of restoring the National
25 Aeronautics and Space Administration's research focus

1 and its mandate to promote the fullest possible commercial
2 use of space. As part of those preparations, the Adminis-
3 trator shall plan for the potential privatization of the
4 Space Shuttle program after the year 2012. Such plan
5 shall keep safety and cost effectiveness as high priorities.
6 Nothing in this section shall prohibit the National Aero-
7 nautics and Space Administration from studying, design-
8 ing, developing, or funding upgrades or modifications es-
9 sential to the safe and economical operation of the Space
10 Shuttle fleet.

11 (b) SAFE OPERATION.—In reviewing proposals for
12 moving to a single prime contractor the Administrator
13 shall give priority to continued safe operation of space
14 transportation systems.

15 (c) FEASIBILITY STUDY.—The Administrator shall
16 conduct a study of the feasibility of implementing the rec-
17 ommendation of the Independent Shuttle Management Re-
18 view Team that the National Aeronautics and Space Ad-
19 ministration transition toward the privatization of the
20 Space Shuttle. The study shall identify, discuss, and,
21 where possible, present options for resolving, the major
22 policy and legal issues that must be addressed before the
23 Space Shuttle is privatized, including—

1 (1) whether the Federal Government or the
2 Space Shuttle contractor should own the Space
3 Shuttle orbiters and ground facilities;

4 (2) whether the Federal Government should in-
5 demnify the contractor for any third party liability
6 arising from Space Shuttle operations, and, if so,
7 under what terms and conditions;

8 (3) whether payloads other than National Aero-
9 nautics and Space Administration payloads should
10 be allowed to be launched on the Space Shuttle, how
11 missions will be prioritized, and who will decide
12 which mission flies and when;

13 (4) whether commercial payloads should be al-
14 lowed to be launched on the Space Shuttle and
15 whether any classes of payloads should be made in-
16 eligible for launch consideration;

17 (5) whether National Aeronautics and Space
18 Administration and other Federal Government pay-
19 loads should have priority over non-Federal payloads
20 in the Space Shuttle launch assignments, and what
21 policies should be developed to prioritize among pay-
22 loads generally;

23 (6) whether the public interest requires that
24 certain Space Shuttle functions continue to be per-
25 formed by the Federal Government; and

1 (7) how much cost savings, if any, will be gen-
2 erated by privatization of the Space Shuttle.

3 (d) REPORT TO CONGRESS.—Within 60 days after
4 the date of the enactment of this Act, the National Aero-
5 nautics and Space Administration shall complete the study
6 required under subsection (c) and shall submit a report
7 on the study to the Committee on Commerce, Science, and
8 Transportation of the Senate and the Committee on
9 Science of the House of Representatives.

10 **SEC. 261. LAUNCH VOUCHER DEMONSTRATION PROGRAM**
11 **AMENDMENTS.**

12 Section 504 of the National Aeronautics and Space
13 Administration Authorization Act, Fiscal Year 1993 (15
14 U.S.C. 5803) is amended—

16 (A) by striking “the Office of Commercial
17 Programs within”; and

18 (B) by striking “Such program shall not
19 be effective after September 30, 1995.”;

22 subsections (c) and (d), respectively.

1 **SEC. 262. PRIVATIZATION OF MICROGRAVITY PARABOLIC**
2 **FLIGHT OPERATIONS.**

3 (a) FINDING.—The Congress finds that no national
4 security or mission critical justification exists for the Na-
5 tional Aeronautics and Space Administration to maintain
6 its own fleet of aircraft to provide a short duration micro-
7 gravity environment via parabolic flight.

8 (b) PRIVATIZATION OF FLIGHT OPERATIONS.—(1)
9 The Administrator shall privatize all parabolic flight air-
10 craft operations conducted by or for the National Aero-
11 nautics and Space Administration in support of micro-
12 gravity research, astronaut training, and other functions,
13 whose total cost can be reduced through issuance of one
14 or more long-term, renewable, block purchase contracts
15 for the performance of such operations by United States
16 commercial sector providers.

17 (2) Within 90 days after the date of the enactment
18 of this Act, the Administrator shall issue a request for
19 proposals to provide services which meet all or part of the
20 microgravity flight needs of the National Aeronautics and
21 Space Administration, as described in paragraph (1) at
22 a net savings to the United States Government. The Ad-
23 ministrator shall coordinate the process of review of such
24 proposals, and shall oversee the transfer of such oper-
25 ations to the commercial sector as specified in paragraph
26 (3).

1 (3) Within 6 months after the issuance of a request
2 for proposals under paragraph (2), the Administrator
3 shall, where cost effective, award one or more contracts
4 for microgravity parabolic flight services to a microgravity
5 flight provider that is certified by the Federal Aviation Ad-
6 ministration. Except as provided in paragraph (4), the Ad-
7 ministrator shall cease all National Aeronautics and Space
8 Administration-operated parabolic aircraft flights, and
9 shall thereafter procure all microgravity parabolic flight
10 services from commercial sector providers. National Aero-
11 nautics and Space Administration experimenters, and Na-
12 tional Aeronautics and Space Administration-funded ex-
13 perimenters, who would otherwise use National Aero-
14 nautics and Space Administration-owned or operated
15 microgravity parabolic flight aircraft, shall be issued
16 vouchers for the procurement of microgravity parabolic
17 flight services from the commercial sector.

18 (4) The Administrator may, as necessary to ensure
19 the continuity of National Aeronautics and Space Admin-
20 istration operations, continue to operate parabolic aircraft
21 flights for up to 3 months after a contract is awarded
22 under paragraph (3). If the Administrator continues oper-
23 ations pursuant to this paragraph, the Administrator shall
24 concurrently transmit to the Congress an explanation of
25 the reasons for such action.

1 (5) Six months after the National Aeronautics and
 2 Space Administration ceases all parabolic aircraft flights
 3 under paragraph (3), the Administrator shall transmit a
 4 report to Congress on the effectiveness of privatization
 5 under this section.

4 verted to National Aeronautics and Space Administration
5 facilities at a reasonable cost, as determined by the Ad-
6 ministrator.

12 **SEC. 265. COST EFFECTIVENESS CALCULATIONS.**

13 In calculating the cost effectiveness of the cost of the
14 National Aeronautics and Space Administration engaging
15 in an activity as compared to the private sector, the com-
16 parison shall be made based only on the price the private
17 sector provider will charge for such activity.

18 **SEC. 266. PROCUREMENT OMBUDSMAN.**

19 (a) ESTABLISHMENT.—The Administrator shall es-
20 tablish the position of Procurement Ombudsman for the
21 National Aeronautics and Space Administration.

22 (b) FUNCTIONS.—The Procurement Ombudsman
23 shall—

24 (1) be responsible, in consultation with the Of-
25 fice of Procurement, for reviewing proposed new

missions for the National Aeronautics and Space Administration to determine if such missions, or elements thereof, can be fulfilled by United States commercial providers; and

(2) serve as a point of contact for—

(A) persons with whom the National Aeronautics and Space Administration has entered into a procurement contract, with respect to concerns of those persons about that contract; and

23 **SEC. 507. ENDOCRINE DISRUPTER RESEARCH PLANNING.**

24 (a) SHORT TITLE.—This section may be cited as the
25 “Endocrine Disrupter Research Planning Act of 1996”.

1 (b) FINDINGS.—The Congress finds that—

2 (1) recent reports in the media have focused
3 public attention on a possible link between exposure
4 to chemicals that may mimic hormones and may
5 have adverse biological effects in humans and wild-
6 life, including carcinogenic, reproductive, neuro-
7 logical, and immunological effects, now commonly re-
8 ferred to as endocrine disrupters;

9 (2) given the significant scientific uncertainties
10 concerning the effects of such endocrine disrupters
11 on humans and wildlife, it cannot at this time be
12 concluded whether or not endocrine disrupters con-
13 stitute a significant threat to human health or the
14 environment;

15 (3) neither a conclusion that endocrine
16 disrupters pose an imminent and serious threat to
17 human health and the environment, nor a conclusion
18 that the risks are insignificant or exaggerated, is
19 warranted based on the present state of scientific
20 knowledge;

21 (4) additional research is needed to more accu-
22 rately characterize the risks of endocrine disrupters;

23 (5) risk assessment principles should be used to
24 guide the development of a coordinated research
25 plan to ensure that research results are relevant and

adequate to objectively estimate risk to guide future public policy decisions;

(6) research carried out by the Federal Government should be done in a planned and coordinated manner to ensure that limited resources are spent efficiently and that critical information gaps are filled as quickly as possible; and

(7) researchers from academia, industry, and Federal laboratories should coordinate efforts to prioritize research topics, identify capital needs, and, in general, develop a comprehensive research plan to address important scientific and policy questions surrounding the potential effects of such chemicals.

(c) RESEARCH PLANNING REPORT.—

(1) REPORT.—The Administrator, in coordination with other Federal agencies with scientific expertise in areas relevant to assessing the human health and ecological risks of endocrine disrupters, shall submit to Congress, along with the President's Budget Request for Fiscal Year 1998, a plan for conducting research needed to objectively assess and characterize the risk of endocrine disrupters on human health and the environment.

(2) CONTENTS.—The plan submitted under this section shall include—

1 (A) the role of each participating agency in
2 the research plan and the resources required by
3 each agency to carry out the research plan, in-
4 cluding human and capital resources needed to
5 ensure that agencies have appropriate expertise,
6 facilities, and analytical capabilities to meet the
7 goals of the research plan;

8 (B) the mechanisms by which each agency
9 will carry out research, including the use of
10 Federal laboratory facilities, extramural grants
11 and contracts, and cooperative research and de-
12 velopment agreements with universities, re-
13 search centers, and the private sector, and
14 mechanisms to avoid duplication of effort and
15 for appropriate peer review, including independ-
16 ent and external peer review of Federal agency
17 intramural research;

18 (C) specific research strategies and
19 timelines for addressing the critical information
20 gaps with respect to hazard identification, dose-
21 response assessment, and exposure assessment;
22 and

23 (D) an assessment of the current state of
24 scientific knowledge concerning effects of syn-
25 thetic and naturally occurring endocrine

1 disrupters on human health and the environ-
2 ment, including identification of scientific un-
3 certainties unlikely to be capable of significant
4 resolution in the near term, studies which sup-
5 port or fail to support conclusions of adverse
6 public health effects, and the opportunity for
7 public comment on such assessment.

8 (d) SAVINGS CLAUSE.—Nothing in this section is in-
9 tended to alter, enhance, or otherwise affect any statutory
10 authority of the Environmental Protection Agency or any
11 other Federal regulatory agency to regulate substances
12 which may pose a threat to the public health or the envi-
13 ronment.
